## 6<sup>TH</sup> ANNUAL MEDICAL PHYSICS REVIEW COURSE

**March 19-22, 2019**

presented by:

**CHILDREN'S MERCY KANSAS CITY**

Mohammed Aljallad, PhD, DABR, Medical Physicist  
and Radiation Safety Officer

Nima Kasraie, PhD, DABR, DABSNM, Medical  
Physicist

Course limited to first 50 registrants.

\$600 Early Bird

\$650 After Jan. 31, 2019

**Children's Mercy**  
KANSAS CITY

Children's Mercy Kansas City, in conjunction with the Department of Radiology, is pleased to announce the 6th Annual Medical Physics Review Course from March 19-22, 2019.

The event will be held on the Children's Mercy Kansas City campus located directly south of downtown Kansas City, Missouri.

The purpose of this four-day course is to provide a comprehensive medical review of physics for senior medical residents who are taking the ABR core exam in June 2019, or who are in preparation for it the following year.

The instructors for this course include medical physics faculty in the departments of radiology at Children's Mercy and the University of Missouri-Kansas City.

This premier review course will provide participants with an overview of concepts in imaging and radiation physics and will be conducted in an informal, interactive format that include lectures as well as Q&A sessions.

Programming will include:

Day 1: X-Ray and Radiography

Day 2: Fluoroscopy, Mammography, Interventional Radiology

Day 3: RISE, Shielding & Radiation Protection, Radiobiology

Day 4: Ultrasound, MRI, CT, Nuclear Medicine.

Included in the cost of the course is a continental breakfast as well as lunch each day of the event. Additional details for registering to this course will be distributed in the fall. If you have any questions, please contact Teri Carver at [tcarver@cmh.edu](mailto:tcarver@cmh.edu) or by phone at (816) 234-3273.
